# WHY AKEA?

## ▲ TECHNOLOGY

AKEA offers the latest Inverter technology to ensure maximum utilization of solar energy produced, throughout the day & night by incorporating Energy Storage Solutions (ESS).

## ▲ CUSTOMIZATION

We offer customized hybrid solution by analysing the electrical consumption pattern.

## ▲ THE HYBRID ALTERNATE

The system feeds power to your loads, recharges the battery (Back-Up) and hence also provides power during an outage (while still recharging your battery)

## ▲ CHOICE OF GOING AKEA WAY

Our solutions help the end-user to minimize the dependency on the grid, save money, reduce carbon-foot print, and make your property power failure proof.

## ▲ BRAND PROMISE

We assure you that our solutions will fulfil your power demand and go beyond to have the post-installation service needs met with qualified technicians.

## ABOUT US

AKEA MARKETING L.L.P. is one of the leading Solar projects and Equipment's wholesale and service company in Malappuram, Trissur, Calicut, Palakkad. we also known as BLDC SOLAR SHOPE is Located in Valanchery, Malappuram. It is Valanchery's 1st store for multi brand products in Solar, BLDC and lights. We purchase Bulk from Factories and offer handsome price to customers backed with onsite warranty & services.

We provide end to end solution including engineering, procurement, commissioning of services. We also giving trough out solution for all type of residential, commercial, intuitional and large scale requirements. we offer and electric array of products designed to meet your exclusive requirements.

Presently we offer the digital security system, Automation and Renewable Energy including BLDC MOTOR, AC, FAN, CCTV, VIDEO DOOR PHONE, SECURITY ALARM, ACCESS CONTROL SYSTEM, TIME & ATTENDANCE SYSTEM, LIGHTNING ARRESTERS AND SURGE PROTECTION, AUTOMATION FOR GATE, SHUTTER, AND OFF/ON GRIDE SOLAR SYSTEM, SOLAR STREET LIGHT, SOLAR GARDEN LIGHT, WATER HEATER, UPS, INVERTERS, BATTERY, COPMUTER, LAPTOP, and IT Accessories with most modern international brands.

# AKEA Solar For All Your Energy Needs

## PV Modules

AKEA Solar using state of the art technology, we offer both monocrystalline and polycrystalline cell technology in either white, black or dual - glass.

We are particular about module consistency and durability and provide all our partners with comprehensive test data for all the modules we use.

## Batteries

We offer a variety of high efficiency, cost competitive battery technologies including Lead Acid Battery and Lithium Battery. We offer our battery systems pre-configured in both Lithium and Lead Acid mounted using either rack or cabinet storage configurations.

## Bos Components

Attention to details in our BOS. Components selection allows for an easier and more seamless installation.

Our BOS technologies provide the innovative the all in one solutions you're looking for, enabling your project run smoother, faster and more profitable than ever before.

## Inverters

AKEA Solar offers a range of variable power inverters are compliant to every market and transformer-less design which means both reduced weight and higher efficiency.

Maximum power production is achieved by offering wider input voltage and operating temperature ranges.

## Monitoring System

Ideal for residential and commercial PV applications, Solar system monitoring offers live performance data via the internet of inverter and battery bank (depends on solar system type).

Automatic alarms can keep users informed of performance, related issues and help increase production yields. PV array power, current, and voltage can be easily monitored.

## Mounting System

AKEA Solar's mounting system act as the backbone of our pv kits and custom solar energy solutions.

Engineered for durability and designed for simplicity, sunway solar use the highest quality materials in its mounting systems. We have developed stronger, more reliable 100% waterproof, code compliment PV mounting systems for rooftops, carports, and ground.
